

Tracy M. Olson

I have worked at Marten Transport for 27.5 years; in many different departments starting in Trip Entry in 1998. Working my way through Customer Service, Dedicated Fleet Manager, Area Coordinator, Intermodal Account Manager, Customer Service Team Lead and then residing in Freight Claims in 2011. I have since taken on another department within the company; our Asset Intelligence Dept. I started attending the TLC Conferences in 2012 and became Certified in Claims. My goal is to continually educate myself with Freight Claims, Transportation Laws, and all there is to know about Trucking /Logistics.

I grew up in the trucking industry, my Dad was a just short of a 3 Million Mile Safe driver when he retired. I married my husband Dan of 27 years, who also drives and we own our own truck/business. We have two grown sons, Boe 27 owns his own concrete business and CorDel 24 is an Electrical Lineman and owns a tree spading business. With us being empty nesters, we enjoy camping, ATV riding and most of all spending quality time with friends and family.
